

BATTERY PACK

3D SCANNING HAS NEVER BEEN SO PORTABLE!

Artec's special battery pack makes it possible to scan faster and easier than ever before, eliminating the need to be near a power source, and *giving you absolute freedom to scan absolutely anywhere.*

Lightweight and easy to use

To ensure up to **6 hours** of 3D scanning, simply connect the scanner to the battery via the cable provided and you are ready to start capturing right there and then! The battery can be easily placed in the secure battery pouch provided and hung from your belt. The battery itself is light and compact (185 x 125 x 15 mm), allowing easy transportation and freedom of movement while scanning.

Explore more with 3D scanning

The battery pack is ideal for scanning right in areas where there is no electricity and when the object can not be moved.

A powerful charge!

The battery lasts for up to six hours of continuous scanning — a whole day's work out in the field!

3D SCANNING HAS NEVER BEEN SO PORTABLE!

The battery comes with a secure carry pouch, cable and charger.

6h

Charger provides up to 6 hours of continuous scanning

CEE 7

Power plug
CEE 7 Europlug

mm

Battery dimensions
185 × 125 × 15 mm

Charging provided by kit power adapter 100 - 230 V to 19 V

Li

Type of battery
Lithium - polymer

12V

Output voltage 12 V
Capacity 16 000 mAh / 59.2 W
